SCOPE OF THE CONFERENCE

The main theme of the Forum covers the challenges for finance during economic and environmental turbulence. These problems are fundamental in periods of economic disruptions caused by geopolitical, economic, and social factors. Substantive discussion among researchers and practitioners will enable the formulation of future-oriented conclusions aimed at supporting and shaping private finances and the operation of financial institutions and business entities in a period of increased uncertainty in global markets.

You are warmly welcome,

dr hab. Mirosław Wasilewski, prof. SGGW
